

**SUPPLEMENTARY DOCUMENTS FOR
COUNCIL
7.30 pm on Thursday 29 October 2020
Zoom - Online**

The attached documents are due to be considered at the meeting listed above and were unavailable for circulation when the agenda for the meeting was published. The agenda items to which the documents relate is noted below.

AGENDA

6. Questions from the Public (Pages 2 - 3)
7. Questions from Councillors (Pages 4 - 8)

Full Council – 29 October 2020

Questions from the Public

1 Steve Dean to Councillor Mark Ingall (Leader of the Council):

I submitted a question to Council on 17 September 2020 regarding the land sale associated with Planning Application HW/FUL/20/00316 at 108 Greygoose Park, Harlow. This Planning Application was refused in July 2020 and in your reply to my question on 17 September you said that if there is a successful appeal against this decision, the land sale will go ahead.

The diagram attached to your reply showed an area marked D highlighted in yellow as 'The piece of land Harlow Council is prepared to sell' that was agreed in March 2017, subject to planning approval. 'The piece of land Harlow Council is prepared to sell' does not include any of the land marked B in your diagram as you advised that the Council refused to sell any of this area.

However, in order to overcome one of the reasons for the planning application refusal in 2019 (inadequate provision for parking), in the application made in 2020 the area of land that would have to be purchased from Harlow Council has been increased to include part of the land marked B in your diagram, i.e. the area the Council refused to sell. This overall piece of land would likely result in an unacceptable loss of trees and hedgerow which are an important amenity feature of the area with consequent further impacts such as increased noise and less security for residents of the adjoining cul-de-sac. This was the reason for refusal of Planning Application HW/FUL/20/00316 in July 2020.

As the land required to facilitate Planning Application HW/FUL/20/00316 consists of an area that, as advised by yourself, was not agreed for sale by Harlow Council in March 2017 (subject to planning approval), and the land sale offer is more than three years old, should the land sale offer be withdrawn and a further purchase request not be considered until after the land sale policy review is complete next Spring (as per Harlow Council's web site)?

Reply from Councillor Mark Ingall (Leader of the Council):

The Council recognises that the development proposals under planning application HW/FUL/20/00316 includes the use of land within Parcel B, as detailed on the Council's plan dated 27 February 2017. When the Council considered the land purchase application submitted by the owner of 108 Greygoose Park, the Council elected not to sell land Parcel B. The outcome

of that application was that the Council agreed conditionally to sell land Parcel D only.

In line with that decision, the Council remains willing to sell land Parcel D, subject to planning. Should the owner of 108 Greygoose Park wish to acquire additional land to facilitate the delivery of the current, or any subsequent development proposals, a fresh land purchase application will need to be submitted and determined by the Council. Any such future applications will be decided in line with the Council's prevailing land sale policies. Aligned with the Council's discretionary moratorium on land sale applications, as things stand new applications are not currently being considered.

Full Council – 29 October 2020

Questions from Councillors

1 Councillor David Carter to Councillor Mark Ingall (Leader of the Council):

Lewisham Council leases 40 flats in two blocks, Terminus House and Templefields House, both from Caridon who own the properties. According to Councillor Bell from Lewisham, 8 are vacant and they are working hard to fill them. Councillor Bell also says they are working with the accommodation provider to get these tenants permanent homes close to where they live now, as they are building their lives in the area.

Can Councillor Ingall assure me that Harlow Council will not offer any accommodation to these residents placed here by Lewisham Council?

Reply from Councillor Mark Ingall (Leader of the Council):

Since the introduction of Permitted Development rights in 2013 and the freeze to the Local Housing Allowance cap, both introduced by a Conservative Government, a number of Labour, Conservative and Lib Dem councils have felt forced into using converted office blocks to discharge their homeless duty by placing tenants in accommodation out of borough in towns like Harlow.

However the information Councillor Carter relies upon to frame his question, focussing singularly on Lewisham, comes from a report written in February of this year, prior to a number of telephone calls made by me to Councillor Paul Bell the housing Portfolio Holder for Lewisham, and prior to a visit here in October by Paul Bell at my invitation to view some of the accommodation. As such this report is now out of date. As a direct result of these telephone calls and visit Councillor Bell has asked for a full review into the use by Lewisham of office block conversions like Terminus House and Templefields Harlow.

Harlow has established its own rules on who can join the Harlow Housing Needs Register and what priority can be awarded on applications for housing. Whilst applicants may qualify in their own right, after investigation, to join Harlow Councils Housing Needs Register, Harlow sets a strong residency criteria for applicants to qualify through either their own residency, a family connection, employment or other special reason. Qualification is the first stage of being accepted onto the register, overall priority being awarded is based on evidence housing need.

2 Councillor Andrew Johnson to Councillor Mark Ingall (Leader of the Council):

By what means and by how much has the Council and the community of Harlow benefitted by way of support from the Government during the Covid Pandemic?

Reply from Councillor Mark Ingall (Leader of the Council):

Currently the Council has received or expects to receive £2.2 million in direct Government support as a result of the Covid-19 Crisis. This is both ring fenced and non-ring fenced grants provided at different stages of the pandemic and through different funding allocations and has been provided to support the additional costs and income reductions the Council has experienced as a result of the pandemic.

However this support to the Council of £2.2 million comes after 10 financial years during which the Council has seen a 55 per cent reduction in its annual support from Government equivalent to a total cumulative loss to the town of nearly £17million so far over that period.

Furthermore the report presented to Cabinet in September identified that the Council was facing a £500,000 financial pressure in the current year as government support had not matched the increased costs and reduced income caused by Covid. This has possible implications in to the future years of Harlow's MTFS. Despite further funding allocations being made since that report was published there are likely to be ongoing financial pressures and support for the community required in the coming months.

The local economy has received £32 million pounds in direct government support to date. This has been provided through extended business rates reliefs (£19 million), business grants (£12 million) and hardship support (£1 million).

3 Councillor Simon Carter to Councillor Mark Wilkinson (Portfolio Holder for Housing):

How many council houses has the council built in the previous municipal year, how many does it expect to build in the current year, and how many will it build in the next year?

Reply from Councillor Mark Wilkinson (Portfolio Holder for Housing):

In the municipal year 19/20, 2 Council homes were developed and delivered by Harlow Council. In addition 130 affordable homes were delivered in

partnership with others on the BCA estates and on the site of the former Rugby club.

In the municipal year 20/21, 15 new Council homes will be delivered by the Council and, in partnership, 70 affordable homes. In addition 45 homes will be purchased directly by the Council to be renovated to Council House standard and let as Council Homes. Also 5 more houses will be purchased and renovated by Harlow's housing and regeneration company, restored to Council house standards, 2 to be let at Council house rents, 2 to be let at affordable rents and 1 at full market rent.

During 21/22 the Council expects to build 16 new council homes.

During 22/23 onwards the Council currently has plans to develop 66 new council homes at Lister House (Perry Road), The Hill and Stackfield.

In total this will result in 348 affordable homes being delivered, of which 146 will be Council homes over this four year period.

The Council will pursue other opportunities to deliver new social rent and affordable homes, either with partners or other suitable developers. In addition, the Council hopes to continue purchasing houses on the open market itself and through HTS (Housing and Regeneration) Ltd.

4 Councillor Simon Carter to Councillor Mark Ingall (Leader of the Council):

How many private homes does the council intend to purchase on the open market, and over what period?

Reply from Councillor Mark Ingall (Leader of the Council):

As reported to Cabinet in September it is proposed to acquire up to 45 three bedroom houses via the open market at an average cost of £280,000 per dwelling during the remainder of the 2020/21 financial year to add to the HRA housing stock. The actual number purchased will depend on final price paid and availability of suitable homes that meet local housing need.

5 Councillor Michael Hardware to Councillor Mark Ingall (Leader of the Council):

How much New Homes Bonus has the Council received during the last 10 years and what has the Council done with the money?

Reply from Councillor Mark Ingall (Leader of the Council):

Since 2011/12 the Council has received a total of £7.7 million in New Homes Bonus Payments.

The funds have been used to:

- Support the local services provided through the Discretionary Services Fund (£6.0 million);
- Support the General Reserve or the base budget during 2011/12, 2012/13 and 2013/14 (£925,000); and
- Make contributions to other specific reserves focussed on Harlow regeneration and the creation of HTS Group (£780,000).

6 Councillor Michael Hardware to Councillor Danny Purton (Portfolio Holder for Environment):

The Council decided recently not to reduce the number of homes in the Local Plan, despite the new 2018 ONS figures revealing a lower housing need in the town. The reason given by the Council was that it wanted to maintain the numbers in order to meet perceived social housing demand as displayed by the Housing Needs Register. Can he confirm the percentage and total number of social housing in the soon to be adopted Local Plan?

Reply from Councillor Danny Purton (Portfolio Holder for Environment):

Planning Practice Guidance issued by the Government identifies that the ONS figures on household formation are the “starting point estimate for housing need”; other factors are also taken into consideration, such as longer term migration trends, the need to provide housing to support employment growth as well as the desire to increase the level of affordable housing provision.

The new Local Plan has a requirement that 30 per cent of all housing developed on major sites (i.e. those providing more than 10 houses) should be defined as affordable housing. With the Plan providing for the delivery of 10,600 homes in total, this would equate to 3,180 affordable homes.

7 Councillor Tony Edwards to Councillor Mark Ingall (Leader of the Council):

Would the Leader of the Council agree to approach Essex County Council seeking a resolution to the poor state of Northgate Roundabout which by design is arguably impossible to maintain without specialist equipment and road closures. Can the Leader also seek assurances from the County Council that ease of maintenance will be considered as an important design feature of highway design?

Reply from Councillor Mark Ingall (Leader of the Council)

This roundabout has caused problems for a number of years – from the lengthy period to undertake repairs to the current difficulties with maintenance.

I will agree to write to Essex County Council and request that this roundabout is changed to hard surfacing to prevent maintenance problems. I will also seek an assurance that Harlow Council's landscape team are involved in any future design of roundabout construction and/or repair so that appropriate advice can be provided and maintenance difficulties prevented.
