

● East of England ● England ● Harlow

Rank (Highest incidence)	LTLA	Region	Rate per 100,000 population			
			Prior 7 days	Most recent 7 days	Absolute difference	Relative change
			(2020-09-02 to 2020-09-08)	(2020-09-09 to 2020-09-15)		
1	Bolton	North West	199.7	197.3	-2.4	=
2	Hyndburn	North West	96.5	147.2	50.7	Increase
3	Preston	North West	107.2	144.6	37.4	Increase
4	Rossendale	North West	50.8	135.4	84.6	Increase
5	South Tyneside	North East	67.2	126.4	59.2	Increase
141	Harlow	East of England	10.4	18.5	8.1	=

Outbreak Prevention

- Working with Essex Resilience Forum on implementing Local Outbreak Control Plan
- Which scenarios?
 - - Single site?
 - - General outbreak?
 - - Travel to/from problem areas?
 - - Others?

Key messages/steps/issues

1. Local comms campaign: 'Hands, Face, Space'
2. Increase visits to 'at risk' premises
3. Close liaison with police & co-ordinate community safety patrols
4. Test & Trace – responsibility of ECC with some local input
5. Better liaison with non-Essex authorities
