

<b>Risk Name</b>	<b>CR01 - Financial Resilience</b>
------------------	------------------------------------

<b>Risk Owner</b>	Simon Freeman	<b>Review Date</b>	31 March 2022
-------------------	---------------	--------------------	---------------

<b>Impacted Objective</b>	Sound Resource Management
<b>Risk Appetite Definition and Threshold</b>	Cautious: 5

<b>Risk</b>	If a sustainable budget is not secured, then the Council will lack financial resilience
<b>Background</b>	The Government's fiscal policy in respect of deficit reduction reducing public sector funding combined with the Council's limited ability to raise income could result in the Council's financial resilience being at risk. In addition uncertainty exists in respect of the Government's plans for local government funding reform and business rates retention

<b>Risk Likelihood</b>	Options for increasing revenue to enable the Council to compensate for reduced Government Funding are becoming extremely limited. Given the budget reductions already made further budget savings will be extremely challenging if services are to be protected. Pressures are now evident not only in the General Fund but also the Housing Revenue Account as a result of Government policy on rents.
<b>Risk Impact</b>	The impact of any further significant budget cuts to enable a balanced budget to be delivered could have a major impact on delivery of the Council's corporate objectives. Over the period of the MTFS there could be an impact on Council's ability to meet statutory responsibilities and community aspirations in respect of discretionary services.

<b>Controls in Place</b>	<b>Additional Actions to mitigate risk (4T's)</b>
Development of the Council's MTFS and the detailed planning of future budgets is now undertaken early in the financial year and is an ongoing process rather than an annual review and is linked with the monthly Budget Monitoring process. The council has approved a three year MTFP which reflects that there are small projected budget gaps over the period 2021/22 to 2023/24. Ongoing uncertainty stems from both the proposals regarding the new Government Funding distribution methodology and the actual level of resources to be distributed through that mechanism. In addition, the impacts from Covid-19 are still unclear and could impact on baseline funding.	Whilst the pressures generated in the Council's grant income are largely driven by Government policy the financial situation continues to be monitored at a high frequency. The Administration will continue to be provided with detailed financial information and will be appropriately supported in reaching decisions upon how these financial challenges can be faced. The draft 2022/23 financial settlement is aligned with previous assumptions and the variations related to Covid are manageable within the specific funding earmarked for this purpose.

<b>Risk Owner</b>	Jane Greer	<b>Review Date</b>	31 March 2022
-------------------	------------	--------------------	---------------

<b>Impacted Objective</b>	Regeneration and a thriving economy
<b>Risk Appetite Definition and Threshold</b>	Hungry: 16

<b>Risk</b>	If the Harlow Offer is poor, then the town will fail to attract new or retain current businesses
<b>Background</b>	A lack of private sector investment and/or disinvestment by retailers and landowners in the Town Centre could lead to a further decline in its attractiveness as a shopping and leisure destination. The Harlow Offer is key to retaining and attracting new investment in to the town

<b>Risk Likelihood</b>	The macro economic impact on the retail sector is very uncertain. Low land values hinder investment. The retail sector has been significantly affected by Covid 19, and is unlikely to return to the position prior to the outbreak.
<b>Risk Impact</b>	Delays or failure to deliver regeneration. Damaged reputation and perception towards the town. Potential loss of jobs and employment. Reduction in amount of income to the Council.

<b>Controls in Place</b>	<b>Additional Actions to mitigate risk (4T's)</b>

------------------	---

<b>Risk Owner</b>	Andrew Bramidge	<b>Review Date</b>	31 March 2022
-------------------	-----------------	--------------------	---------------

<b>Impacted Objective</b>	More and better housing
<b>Risk Appetite Definition and Threshold</b>	Open: 13

<b>Risk</b>	If the town lacks sufficient housing and also does not provide a suitable housing mix, it will not attract or retain residents
<b>Background</b>	The town requires a suitable housing mix to attract new and retain existing residents for an evolving and sustainable community. Supply must be balanced with demand and housing need, taking into account National Housing and Planning policies. As part of that mix, housing for local people that is genuinely affordable remains a high priority for the Council.

<b>Risk Likelihood</b>	Lack of funding to build new homes. Lack of available land. Low land values. Lack of Local Plan (or non-approval due to failure to demonstrate Duty to Cooperate). Reluctance of housing developers to build out approved schemes will limit the supply of affordable housing as a proportion of private developments. Government policy in relation to social housing may limit the supply of affordable housing.
<b>Risk Impact</b>	Lack of Local Plan could create lack of local control or direction, Lack of suitable housing may lead to people moving out of area. Inability to generate sufficient affordable housing. Impact on right population mix.

<b>Controls in Place</b>	<b>Additional Actions to mitigate risk (4T's)</b>
Local Plan Examination took place March/April 2019 and the inspector's initial report was received in December 2019, proposing his modifications of the Plan with adoption expected summer 2020. Due to the Covid 19 pandemic the consultation period on the modifications to the Local Plan was extended to the end of May. Following this, the Planning Inspectorate asked all local authorities to provide more evidence on household projections and this work took place during July and August. The Inspector's draft final report was received in October and the Local Plan was formally adopted at the Council meeting on 10 December 2020.	The Council adopted a new Housebuilding Strategy in March 2022 which sets out a plan to deliver over 300 new houses on Council land. Alongside this, the Council is actively engaging in dialogue with landowners in and around the town centre which could see 600 – 1,000 new houses come forward through windfall sites. The Council is therefore confident of being able to meet its housing targets. The new Corporate Strategy is also realigning priorities, which will result in a revised strategic risk register for 2022/23 onwards..

<b>Impacted Objective</b>	Wellbeing and social inclusion
<b>Risk Appetite Definition and Threshold</b>	Moderate: 8

<b>Risk</b>	If the Council is unable to fulfil its community wellbeing role, then partnering and strategic opportunities may be lost, impacting the future of discretionary services
<b>Background</b>	Discretionary services are dependent upon the Council's community leadership role which relies to some extent on co-production and co-operation of other agencies and organisations

<b>Risk Likelihood</b>	Health and wellbeing of the community could be affected due to inability to bring together partners and agencies to deliver adequate services. Discretionary services budget likely to be restricted or removed..
<b>Risk Impact</b>	Residents unable to access adequate services. Frustration of community cohesion. Perception of Harlow Offer could deteriorate.
